

Peak Adventures

Morro Peak

Our primary Peak Adventure is a hike up Morro Peak, overlooking the Athabasca River Valley. This is a hiking trip for the adventurous traveler, wanting to summit a mountain. Participants enjoy at least 30 minutes at the summit to take in the breath taking views. Your guide will ensure this trip moves at a comfortable pace for you. No experience is necessary; however, guests should expect to walk for a minimum of four hours. Technical gear is not required and ropes are not necessary for any of our Peak Adventures; lunch is provided. Participants must bring adequate foot wear (approach shoes or hiking boots), wind/rain jacket, warm shirt, and one liter of water. Dressing in layers is the best way to cope with the varying weather and temperatures most often experienced on mountains. Guests may book more challenging Peak Adventures. Many additional Peak Adventures have already been designed for your participation. We also accept special requests throughout Jasper National Park. You may also join a mutli-day day hiking adventure if you are staying in Jasper for multiple days. Alternate Peak Adventures may have different associated prices, please inquire.

All of our Peak Adventures are led by trained professionals through the Association of Canadian Mountain Guides, ensuring you the highest level of safety and professionalism in the Canadian guiding industry. Your guide will contact you after your reservation is made.
