

Canoeing Pyramid Lake

The ambience of canoeing on a lake in the mountains is hard to imagine. Fish breaking the surface of the still water, the call of a loon, the sighting of beaver, or perhaps a moose grazing in the water, as you paddle a canoe with your guide on a lake, create memories not soon forgotten. The Great Canadian Canoe Experience offers you the opportunity to learn paddling techniques, introduce you to wonderful array of wildlife and waterfowl found in this peaceful setting, and rewards you with views seldom seen of the surrounding peaks of the Rocky Mountains in Jasper National Park.

No experience is necessary for any of our canoe trips; we provide all of the necessary safety equipment including your certified canoe guide. Participants are encouraged to dress appropriately for the weather and bring along drinking water, jacket, snacks, and your camera! Only minutes from town, Pyramid Lake offers just such an opportunity to appreciate the natural beauty that surrounds us. We provide return transportation from your accommodations.
